Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C. Size is not given for octavo publications. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e.g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents. Requests for them, if they are available, should be addressed to the issuing office or to the Office of Technical Services, as indicated by the distribution symbol.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, administrative and confidential (or restricted) publications are omitted.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the Office of Technical Services, Commerce Department, are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. doc. 108, 82d Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C., by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of $25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

AEC research and development reports—Continued

191 [This entry number not used]

192 GA-1854. Development of metal-clad fuel elements for high-temperature gas-cooled reactor; by W. P. Wallace [and others]. Mar. 17, 1961. cover title, iii+70 p. il. 4°. (General Atomic Division, General Dynamics Corporation, San Diego, Calif.) [Processed.] Φ Paper, $1.75.

193 GA-2204. 40-MW(E) prototype high-temperature gas-cooled reactor, research and development program, quarterly progress report for period ending Mar. 31, 1961 [with lists of references]. Sept. 1961. cover title, [2]+x+184 p. il. 4° (General Atomic Division, General Dynamics Corporation, San Diego, Calif.) [Processed.] Φ Paper, $2.75.

194 GEAP-3581. Nuclear superheat project, 5th quarterly progress report, July–Sept. 1960. Sept. 1961. cover title, [1]+viii+188 p. il. 4° (Atomic Power Equipment Department, General Electric Company, San Jose, Calif.) [Processed.] Φ Paper, $3.00.

195 GEAP-3590 (rev. 1). Steam cooled power reactor evaluation: Mixed spectrum superheater. Nov. 1960. cover title, ix+185 p. il. 4° (Atomic Power Equipment Department, General Electric Company, San Jose, Calif.) [Processed.] Φ Paper, $2.75.

196 GEAP-3724. Nuclear superheat project, 7th quarterly progress report, Jan.–Mar., 1961; by R. T. Pennington. [1961.] v+122 p. il. 4° (Atomic Power Equipment Department, General Electric Company, San Jose, Calif.) [Processed.] Φ Paper, $2.50.

197 GNEC-172. Nuclear superheat development program, 7th quarterly progress report, Jan.–Mar. 1961; [prepared by] Combustion Engineering, Inc., Windsor, Conn., and General Nuclear Engineering Corporation, Dunedin, Fla. Aug. 1961. cover title, x+123 p. il. 4° [Processed.] Φ Paper, $2.50.

197A HASL-115. Fallout program, quarterly summary report, (June 1-Sept. 1, 1961); prepared by Edward P. Hardy, jr., Joseph Rivera, Robert Frankel. Oct. 1, 1961. [1]+vi+399 p. il. 4° (Health and Safety Laboratory, New York Operations Office, TID-4500, 16th [edition].) [Processed. Includes list of recent publications related to fallout.] Φ Paper, $5.00.

198 HW-67473. Steam cooled power reactor evaluation: Beloyarsk (URAL) reactor [with list of references]. Apr. 1961. cover title, iii+145 p. il. 4° (Hanford Works, General Electric Company, Richland, Wash.) [Processed.] Φ Paper, $2.75.

199 IS-221. Roles of niobium pentoxide, vanadium pentoxide and titanium dioxide in grain growth and sintering of uranium dioxide [with list of literature cited]; by James Frederick Watson, D. R. Wilder. May 1960. cover title, vi+60 p. il. 4° (Ames Laboratory, Iowa State University, Ames, Iowa.) Φ Paper, $1.50.

200 IS-330. Gaseous diffusion at moderate flow rates in circular conduits [with list of literature cited]; by George Roley, R. W. Fahlen. July 1960. cover title, vi+157 p. il. 4° (Ames Laboratory, Iowa State University, Ames, Iowa.) [Processed.] Φ Paper, $2.75.

201 NAA-SR-6100 (v. 1, 2). Steam-cooled power reactor evaluation, graphite-moderated, boiling water, steam-superheat reactor [with lists of references]. Sept. 1961. cover title, viii+219 p. il. 4° (Atomics International Division, North American Aviation, Inc., Canoga Park, Calif.) [Processed.] Φ Paper, $3.00.

202 NAS-NS-3041. Nuclear science series: Radiochemistry of cobalt [with bibliographies; by L. C. Bate and G. W. Leddicotte]. [Sept. 1961.] cover title, v+90 p. il. (National Academy of Sciences, National Research Council.) [Processed.] Φ Paper, $1.00.

203 NAS-NS-3042. Nuclear science series: Radiochemistry of tungsten [with lists of references; by W. T. Mullins and G. W. Leddicotte]. [Sept. 1961.] cover title, v+40 p. (National Academy of Sciences, National Research Council.) [Processed.] Φ Paper, 50c.

204 NAS-NS-3044. Nuclear science series: Radiochemistry of platinum [with lists of references; by G. W. Leddicotte]. [Oct. 1961.] cover title, v+30 p. (National Academy of Sciences, National Research Council.) [Processed.] Φ Paper, 50c.

205 NAS-NS-3045. Nuclear science series: Radiochemistry of iridium [with lists of references; by G. W. Leddicotte]. [Oct. 1961.] cover title, v+32 p. (National Research Council.) [Processed.] Φ Paper, 50c.

206 NAS-NS-3046. Nuclear science series: Radiochemistry of osmium [with lists of references; by G. W. Leddicotte]. [Oct. 1961.] cover title, v+20 p. (National Academy of Sciences, National Research Council.) [Processed.] Φ Paper, 50c.
